

## WHERE SOLUTIONS SOAR....

Apollo Technology Solutions Inc. (ATS) is an innovative technology solutions provider that specializes in telecom expense reduction & management solutions, vendor management & provisioning of carrier (telecom) services and network design and engineering.

Our focus is to streamline complex telecom and IT processes, deliver workable solutions that bridge the gap between 'business objectives' and 'technology requirements' and show you how to save money.

ATS will help to reduce your costs and enable you to get the most value from your telecom and IT investments, freeing you from the network services-related analysis, coordination, provisioning and management duties that take up your valuable time.

Given our experience in vendor management, service provisioning, network engineering and auditing, we recommend the most effective solution while maximizing the use of your internal resources.

## VISIONARY LEADERSHIP

Our philosophy of "Visionary Leadership" enables us to provide our clients with innovative technology and management solutions, focused customer service and deliver significant value not realized through traditional consulting models.

Our holistic approach using advanced engineering skills and superior business acumen, improves our clients efficiencies enabling them to control their costs and focus on their business.

## SOLUTIONS

Leading the way in cost-effective solutions, ATS provides a variety of management, carrier and network engineering services.

Management Solutions It is estimated that nearly 80% of all telecom invoices contain mistakes. Our telecom expense audit & recovery services can resolve billing discrepancies, validate contract rates, create inventories and recover overpayments. Our excellent leading edge tools enable us to audit various technologies including local services (Centrex, LEC billing), long distance, data network services and cellular services.

Carrier Solutions Our relationships with nearly 25 different telecom carriers enables us to function as a single point of contact to create an efficient and cohesive provisioning strategy for all your telecom services (voice & data) thereby reducing expenses and increasing your productivity.

- FREE service / NO fees / NO markups
- Easy process – we place orders & track installation dates

ATS has authorized relationships with many Tier 1/2/3 service providers including:

- Broadwing, Savvis, US LEC, MCI, Sprint
- ACC, Bell South, Qwest, SBC, Verizon
- Level 3, UUNet, Internap, XO
- PaeTec, Megapath, New Edge, Netifice
- NTT/Verio, Birch, TNCI, TTI, and more.

Network Engineering Our professional engineers can provide architecture, design, engineering and/or implementation support for your data, Internet, voice or wireless network infrastructures.
